

The Model 600B battery package is designed to power the Model 600 pulser for over one week of constant operation at 1 pulse per second.

4 alkaline C cells supply the 5 volts DC necessary to power the pulser. They can easily and economically be replaced by removing the top lid of the case.

# MODEL 600B

## BATTERY PACK FOR MODEL 600 PULSER

### SPECIFICATIONS:

LENGTH	5.5 in. (140mm)
WIDTH	2.5 in. (64mm)
HEIGHT	1.9 in. (48mm)
WEIGHT	402 grams
OUTPUT	5V DC
BATTERY LIFE	Over 1 week supplying power to Model 600 pulser at one pulse per second.
BATTERY TYPE	4 C cells
CONNECTOR	BNC
